# STUDENT SUPPORT ROOM GUIDE

I can't listen to lectures and take notes at the same time.

I get anxious and I can't communicate during group work.

Staff

I don't know how to interact with students with disabilities.

**Please contact us with  
any questions or problems you have!**

What is

## What is the Student Support Room?

We help students with disabilities achieve independence during their university lives, so they can be self-reliant after they graduate, too. We offer support for students having problems with their studies and other worries. Depending on each student's disabilities and circumstances, if necessary, we work together with the Student Counseling Room, the Health Care Room, relevant faculties, departments, and courses, as well as organizations both inside and outside the university. Our goal is to make reasonable adjustments and provide proper support.

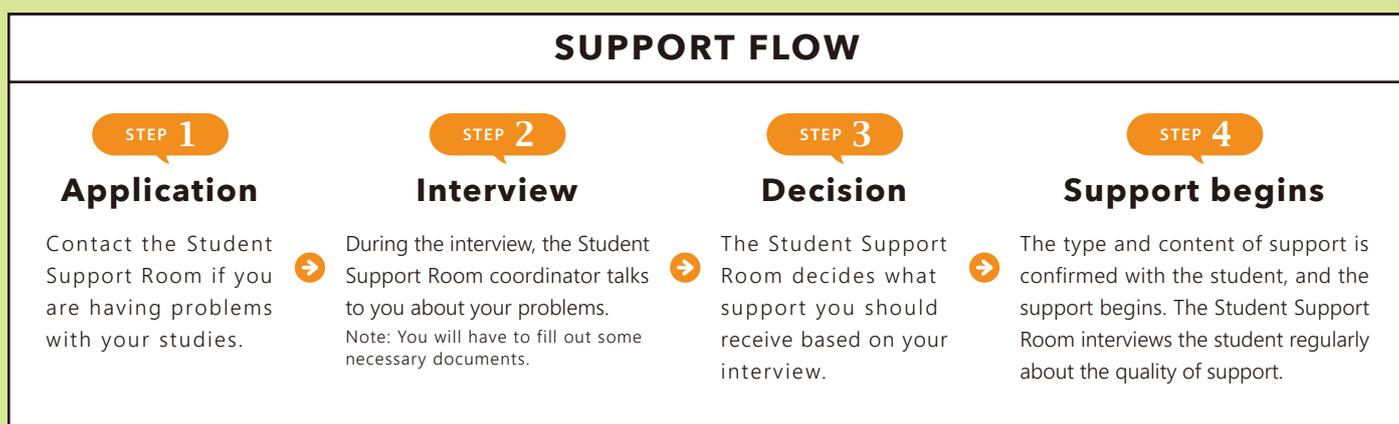

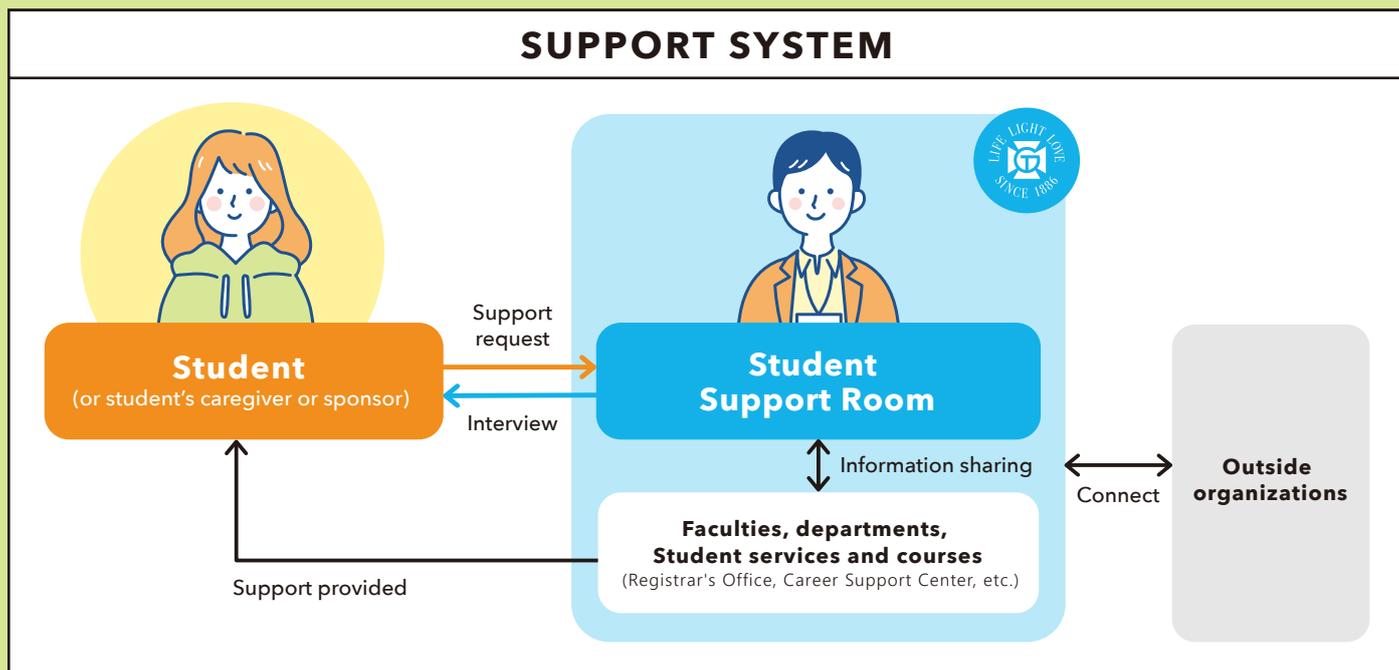

**Eligible  
students**

Students with vision impairments, hearing impairments, physical disabilities, invisible disabilities, and learning disabilities.

TOHOKU GAKUIN UNIVERSITY

The Student Support Room acts as a bridge to link students with disabilities to relevant faculties, departments, and courses, and to other student services.

## HOW TO GET SUPPORT

You can receive support from the Student Support Room using the following methods:

- 1 Visit our Room, 2 Telephone us, or 3 Make an appointment online
